

Give Valentino the gift of *hearing* — and a *voice* to change the world.

Valentino is a joyful young boy with quadriplegic cerebral palsy. He is deaf and nonverbal — he has never heard a voice, and has never spoken a word. *Your financial gift will help fund life-changing cochlear implants for Valentino, giving him the opportunity to hear, speak, and connect with the world around him.*

Because Valentino has never been able to hear sound, he has never had the opportunity to develop speech. Cochlear implants could give him the ability to hear, learn language, communicate with others, and speak for the very first time. Right now, a lack of financial resources stands between Valentino and that life-changing opportunity.
